

MARCH NEWSLETTER 2022

The Hedrick City Council passed a resolution raising the monthly rate for garbage service to \$25. This charge will be reflected on the March 1, 2022 utility bill. This rate increase is due to the increased overhead cost and rate increases charged to the city to provide this service.

The City Clerk is asking residents to verify the mailing address on their utility bills. If you find a missing PO Box or mistake in your mailing address, please contact City Hall to update your information. We have been receiving an increase in returned mail from residents and would like to update our account information. Thank you for your help with this.
